Fatal Collisions

Table 8.1 provides a breakdown of the fatalities by road user class, day of week, time of day and type of roadway.

The detailed listing in figure 8.2 shows some of the individual factors and a brief description of each of the 145 fatal collisions that occurred during 2010.

Deaths of unbelted occupants

- Forty-nine unbelted vehicle occupants were killed in 2010. This represents 35% of all vehicle occupant deaths.

Age and gender of those not using seatbelts

Age of victim	Male	Female
Under 16	1	3
16-24	14	8
25-54	9	4
55 and older	7	3

Deaths of belted occupants

- Seventy-seven belted vehicle occupants were killed in 2010. This represents 55% of all vehicle occupant deaths.

Age and gender of those using seatbelts

Age of victim	Male	Female
Under 16	1	1
16-24	11	8
25-54	19	11
55 and older	19	7

Deaths where seatbelt use was not known

Age and gender of those where seatbelt use was not known.
